# Masters in FinTech

## Scholarships of €6,000

Scholarships of €5,000 are now available for students applying for NCI's ground breaking course – MSc in FinTech, starting in September 2018.

Over the last decade, advances in technology have had a dramatic effect on the Financial Services industry. Technology and its application across financial services, often referred to as FinTech, is continuing to drive change across the industry.

The Irish Government announced in 2015, a major focus is being placed on driving additional employment in financial technology (FinTech) companies by encouraging collaboration between Ireland's IT and Financial Services sectors. It is expected that 10,000 jobs will be created in the next 6 years in FinTech.

Scholarships are strictly limited to 12 students.

To receive the scholarship, students must pay their fees in full no later than 31 July 2018.
