

## **Academic Integrity Statement @ National College of Ireland**

At National College of Ireland, we are committed as staff and students to acting responsibly and ethically; to embrace integrity in all our actions and interactions as members of the college.

Understanding that academic integrity requires the pillars of honesty, trust, fairness, respect, responsibility, and courage.

*In this light we agree to:*

- Strive to do what we say we will, ensuring that we are aware of our commitments and responsibilities in order to fulfil them. We agree to abide by NCI and other relevant policies and the highest standards of conduct.
- Give credit to whom credit is due; recognising and acknowledging the contributions and achievements of others in scholarship, teaching, and research.
- Tell the truth, as a student, lecturer, researcher and as individuals; we will name problems and honestly acknowledge mistakes.
- Hold ourselves and others to account for the things for which we are each responsible.
- Use resources for the purposes for which they are intended.
- Deal fairly, consistently, and in a transparent manner with others.
